NEWS RELEASE DRAFT
 October 16, 2006

TSX-V:AAG
 SEDAR Profile # 00003879

Invicta Project: Andean American Announces Another 60+ Meter Mineralized Drill Intercept

Andean American Mining Corp. (TSX-V: AAG) is pleased to announce that it has received information from our site geologists that the mineralized intercept for hole DDH-17, drilled on the Atenea Structure by the previous operator, was not reported accurately by them. Data re-evaluation has revealed a significant and much larger mineralized section than previously reported. These findings will add significant tonnage and grade to the current validated resources.

The former operator reported for drill hole DDH-17 a mineralized intercept of 14.25 meters with 1.74 g/t gold, 34.97 g/t silver, 1.31% copper, 0.19% Pb and 0.90% Zn. Andean geologists indicate the actual mineralized intercept to be 64.10 meters long. All holes drilled into the Atenea Structure are now being re-examined as considerable copper mineralization is being identified in other holes that was not considered by the past operator.

Drill hole DDH-17 intercepted from 162.6 to 239.1 meters (64.10 meters) a mineralized breccia zone composed of quartz, pyrite, chalcopyrite, hematite, galena and minor sphalerite. This mineralized section has a true width of 39.61 meters and has returned (weighted averages) 0.47 g/t gold, 24.01 g/t silver, 0.63% copper, 0.05% lead and 0.24% zinc.

DDH-17

The Invicta Project is located in West-Central Peru in the department of Lima, province of Huaura, approximately 250 kilometers by road northeast from the city of Lima, Peru.

All the above samples were submitted to CIMM Labs in Lima, for prep work and analyses. CIMM Labs is a Certified and Accredited Laboratory of International Standards.

The Qualified Person for this news release is Victor Jaramillo, P.Geo. of Discover Geological Consultants.

Andean American Mining Corp. (TSX.V-AAG) is focused on growth both organically and through acquisitions. The company is actively pursuing new properties with potential for early

stage gold and silver targets. Andean American continues to maintain excellent community relations and a commitment to responsible environmental practices. The company has a strong management team with over 40 years experience and an effective board dedicated to excellence in corporate governance. Andean American Mining is committed to continuing to be a low-cost, profitable producer with an objective of 200,000 ounces of gold by 2010.
